To NBOC

This is the seventh installment of a series of emails on the newbridgeresidents.org website.

Today's topic deals with **Continuum of Care Resources**, and all of the information comes from the professional staff of Hebrew SeniorLife or NewBridge.

The first menu item is just a link to the **Hebrew SeniorLife** website.

"**Relatively Speaking**," is a quarterly newsletter designed just for the family members of NewBridge on the Charles residents. This menu item leads to a page with links to the current and back issues.

Recorded Educational Sessions currently has a link to a zoom meeting where Tara Fleming-Caruso, NewBridge's Collaborative Care Advisor, talks with Lynda Giovaniello from HSL Home Care.

NewBridge 101 is a Power Point presentation given to all new IL residents. It explains the NewBridge continuum of care model.

The "**There for Them Podcasts**" link leads to a page with many podcasts that have been made available to the children of NewBridge residents--with a focus on helping adult children care for their parents.

The **Driving Resources** page references several articles and videos that address the topic of older adults and driving.

The **Long Term Chronic Care Hospital** menu item provides information from Hebrew SeniorLife on the Hebrew Rehabilitation Center, located in Roslindale and on the NewBridge campus.

The **Outpatient Therapy** menu item has links to HSL Outpatient Therapy Services and Pelvic Floor Rehab.

The **Finances & NBOC Continuum Care** item links to a presentation by Rob Faria, Assistant Director of Finance. This presentation discusses the NBOC financial model, the Modified Life Care Option (MLCO), long-term care insurance, assisted living tax benefits, long-term care and Medicaid among other key topics.
